

For Parents or Guardians

Permission for photo's, video's and audio recordings

Occasionally we use photographs, video's and audio recordings to promote our camps especially on our website (www.gamiing.org). On the General Information Form you will find a section "Photo Release" to be completed and signed by a parent or guardian.

Lost and Found

GAMIING is not responsible for lost items or items left behind at the close of the camp. We strongly urge parents to double check they have the proper bag and belongings before departing for the day during the end-of-day clean up. If something is misplaced and found after the week's end, arrangements can be made to pick it up.

West Nile Virus

There is ongoing concern about the thread of West Nile virus from mosquito's. A hat at all times will be appropriate, however GAMIING can not advise you what to do in terms of a repellent and/or sunscreen. If you use commercial products please let your child bring it. If you use home made products or eco-friendly products, let your child bring that. If you choose not to use anything, please let us know that. Use the appropriate section of the General Camper Information.

Insurance

Due to changes in our insurance policies, GAMIING is not responsible for any incidents, accidents and/or injuries that may be incurred while on this property, either as a customer of the nursery, individual or group taking part in our programs or trails walks or any activity not mentioned above.
